This was a meeting which was designed in total favor of the Vulcan Project. Because there was no Public Address, questions answers from the General Public.

Also there was no Public Address system which denied many of the Hearing impaired their Rights to understand what was being Commented on. Was this a deliberate Act on the part of Vulcan if not why did they conduct this meeting in this manner?

Because of the Lack of Hearing devices/Sound system all was the Public denied their Rights to be informed of All the issues?
